Monkiri Paper cut-out | Folding Guide

Here is a guide for the three-fold method.

- 1 Place the triangular folded paper (15cm square) with the bottom of the guide and the center (dashed line) aligned.
- 2 Fold the right corner at 60 degrees to the guide.

3 Turn the paper over and fold the opposite corner the same way, 60 degrees.

This is a pattern for 15cm square origami paper. Please enlarge or shrink it as needed.
